"FRAN SAN DISCO may switch some letters but heart and soul are definitely in the right place. Cheeky guitar-riffs and synths, from screaming, in-your-face to atmospheric-deep, all together put through a mad techno-rollercoaster. Deep down, the bass is buzzing and booming, driven by mechanical drumbeats - but FRAN SAN DISCO remain - human after all. The ingenious vocal harmonics immediately claim their space in your ear canal and clarify, that they're here to stay. All that combined sums up the unmistakable trademark sound - it's FRAN SAN DISCO!"

The lemons of the debut album "Reality Show," shredded in 2015, were gilded with the EP "FSD II" in 2020. From the 4 song EP with a new sound, "Stay With Me" and "Tropical Breakfast" will be released as videos.

As a logical continuation, the 5 song EP "FSD III" followed at the end of 2022 with the single "Run", which immediately made it to radio airplay and was also released as a video.
